

VISION

Save lives through Intelligent Healing®

MISSION

Improve lives by accelerating healing, relieving pain and reducing the need for opioids.

VALUES

Customer focus. Innovation and excellence. Respect for people. Passion for healing. Social responsibility.

StellaLife® makes oral health and pain management solutions that improve dental patients' experience. We believe that better oral health comes from better ingredients and better formulations. Our natural approach is an extremely effective alternative to traditional products. VEGA Oral Care solutions reduce pain, promote healing and reduce the need for opioids. All done in a more natural way.

Implementation Checklist

- ☐ Log into your StellaLife account with your email. If you need assistance setting up your professional account please reach out to your product specialist.
- ☐ Schedule a live learning training session with your product specialist for StellaLife certification
- ☐ Incorporate "dummy code" into your software for accounting and tracking purposes.
- ☐ Check insurance codes, especially for submission of D9630 (Code for dispensing products). Utilize HSA and FSA.
- ☐ Employ the Insurance Irrigation Code for Hygiene. D4921
- ☐ Determine the cost to the patient.
- ☐ Decide whether to include the cost in the overall fee or as a separate line item.
- ☐ Review the Clinician's Guide to select the procedures for using StellaLife.
- ☐ Ensure Peppermint, Coconut Rinse, and Gel is accessible chairside for clinicians to allow patients to pre-rinse/swish/oral irrigation
- ☐ During the consultation, explain how StellaLife is integrated into the care plan and how to use it according to the 3.3.3. Program.
- ☐ Communicate the significance to the patient by emphasizing that StellaLife is not just another rinse, spray, or gel. Highlight its dual purpose of accelerating healing and alleviating discomfort.
- ☐ Encourage the patient to begin using the Recovery Kit three days before the scheduled procedure to minimize harmful bacteria and enhance tissue saturation with anti-inflammatory agents. Also, ensure they continue the regimen for 7-10 days post-operation.
- ☐ Arrange for the patient to collect the Kit before the surgery or provide it during the consultation, collecting payment at that time.
- ☐ Provide the [DentaMedica consent form](#) as needed.

Excellent ★★★★★

StellaLife.com

Unique Features

- Homeopathic/natural.
- Long-term daily use.
- Adjunct therapy for accelerated healing after dental surgical and non-surgical procedures.
- Natural pain relief for dry mouth, oral ulcers, dry sockets, cold/denture sores and mucositis.

Clinical Tips

- Great for persistent erosive lichen planus and post bleaching gingival sensitivity.
- Great for a patient with swelling after surgical and nonsurgical procedures.
- Use if a patient has a bruised/uncomfortable area after a rubber dam clamp was used.
- As an alternative to a cotton swab, apply with a small plastic stirrer.
- One patient used his temporary partial denture for better gel placement.

Indications

- Relief of pain and discomfort and to speed up recovery of oral wounds following surgical and nonsurgical procedures.
- Relief of pain/discomfort and to accelerate healing of aphthous oral ulcers, mucositis, cold sores, dry mouth, sores from dentures, and dry sockets.
- Reduce local swelling and bruising.

Burning Mouth Syndrome

"Superb product!! This is the first remedy I have found to alleviate the symptoms of burning mouth syndrome..."

★★★★★ by Beth Joyce

Dry Mouth and Sores

"I have been using this product for the past 3 years. I went through extensive cancer treatment in my throat, which caused extensive damage to my mouth. I had absolutely no mucus and mouth sores. After using this product for about a month, I started to have much more mucus and my dry mouth started to subside. I absolutely love this product and will continue to use it for the rest of my life."

★★★★★ by brian zwick

Oral Lichen Planus

"Very soothing mouthwash for sore gums or oral lichen planus. Also helps with dry mouth..."
